

SajiloRent — Owner Guide

Everything you need: houses, tenants, bills, history and notices.

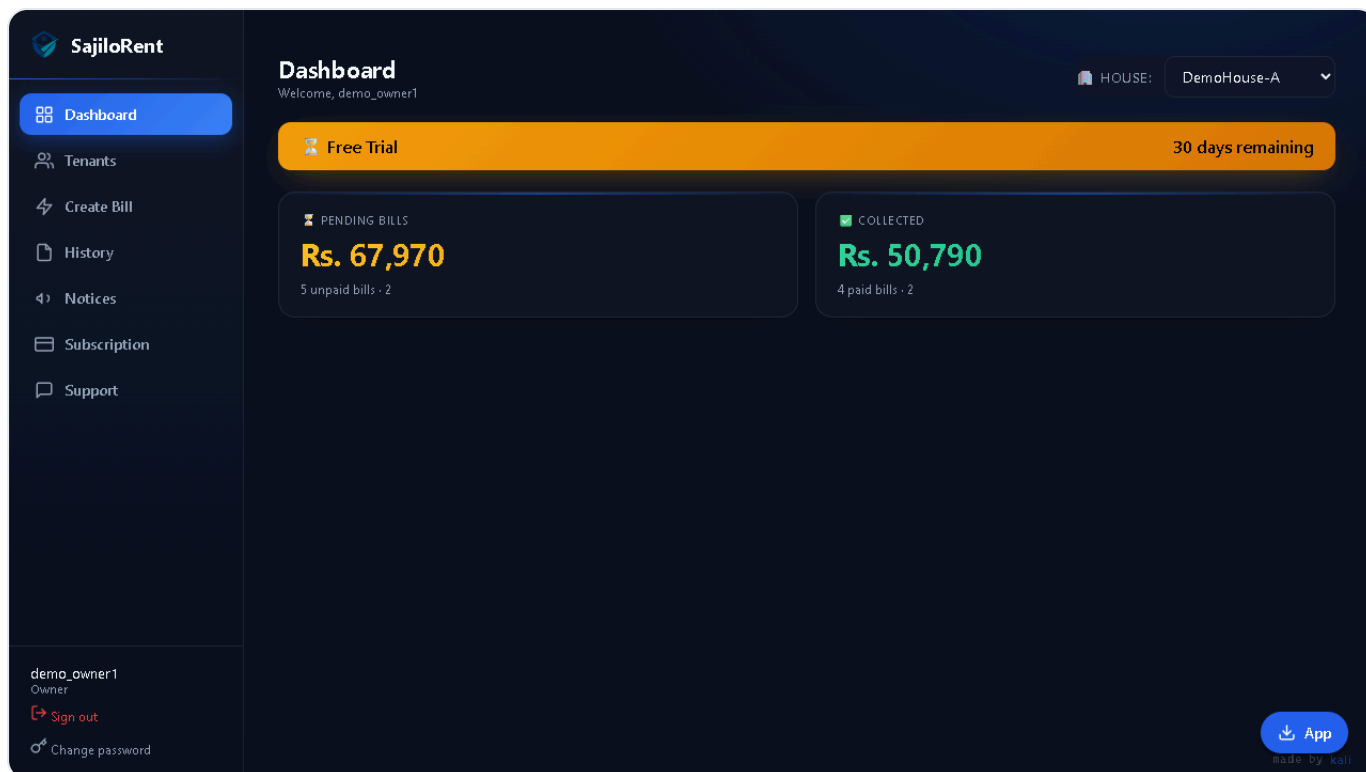

1. Log in

Go to sajilorent.onrender.com (or open the app). Sign in with the credentials we gave you.

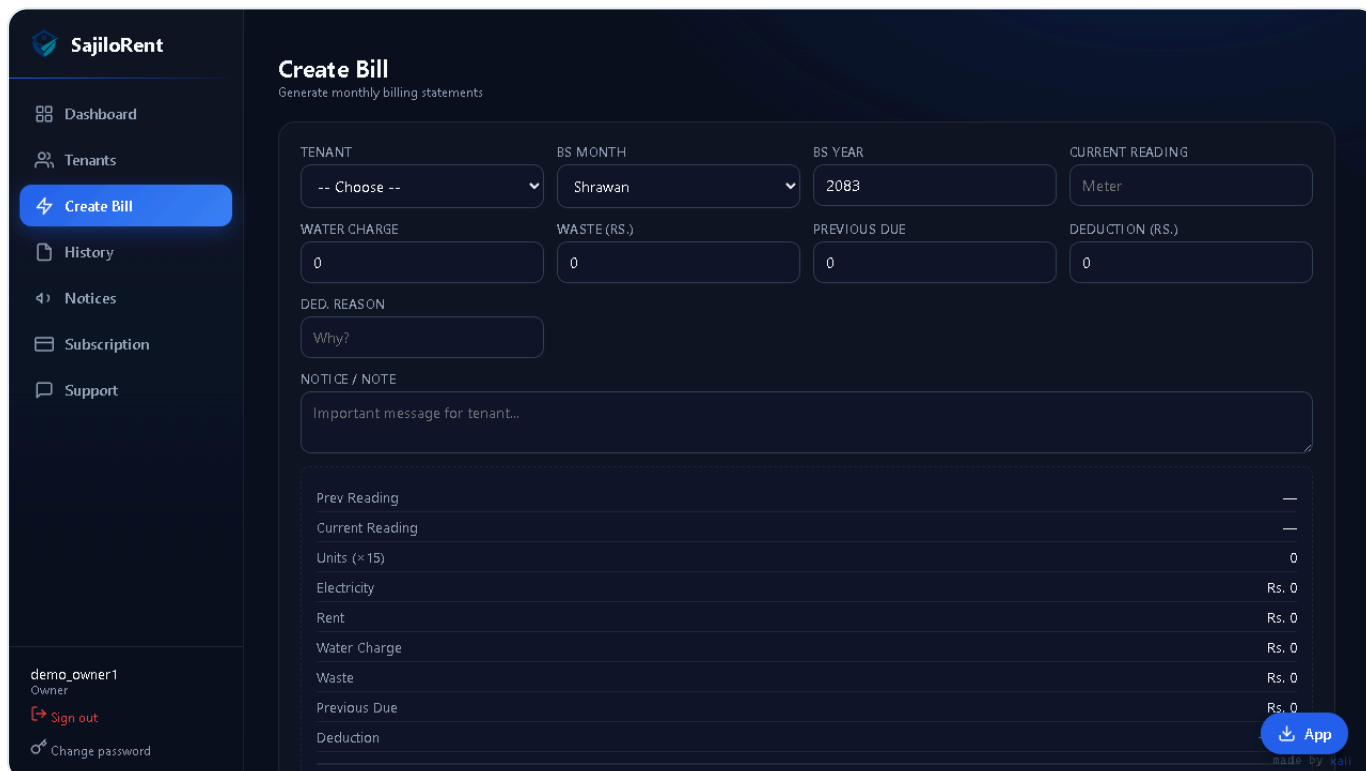

2. Your dashboard

All your houses and monthly stats at a glance. Pick a house to manage it.

3. Generate a bill

Enter this month's reading. The app computes electricity + rent + water + waste automatically.

4. Bill history

Every generated bill is saved. Re-open past months, mark as paid, or adjust balances.

Notices

Send announcements to your tenants

Create Notice

Send an announcement that will appear at the top of your tenants' dashboards.

TITLE *

e.g. Maintenance Notice

PRIORITY

Normal

MESSAGE *

Describe the notice details...

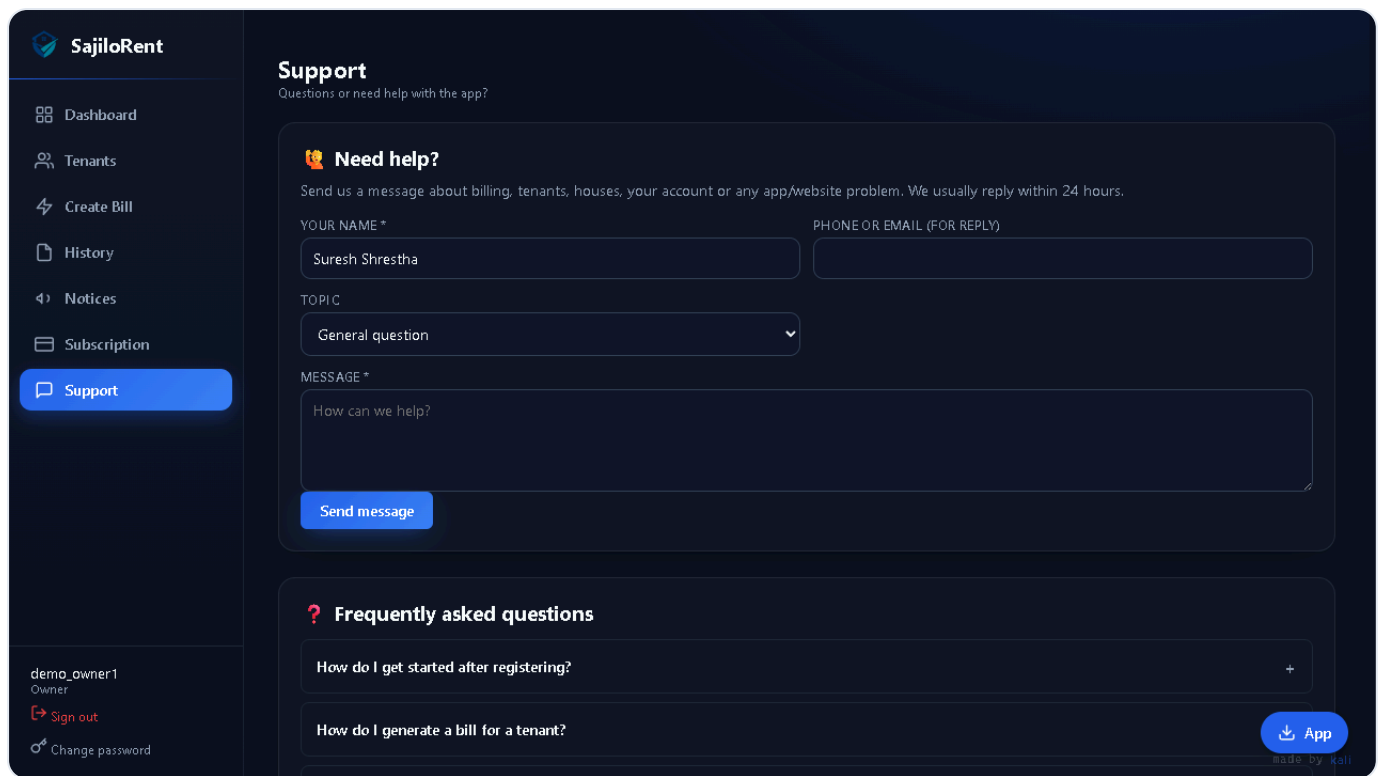

Send Notice

Sent Notices

No notices sent yet.

6. Need help?

Use the Help tab to message us directly from inside the app.

Quick start

- Log in with the credentials we sent you
- Pick your house from the dashboard
- Open the Bill tab and enter this month's electricity reading
- Review history anytime, mark paid
- Post notices so tenants see them instantly
